The enterprise of Mr. Peter Diehl is deserving of particular consideration in this work, both on account of the excellence of its products and its well known reputation since its establishment in Gloversville. This enterprise had its inception here in 1884, Mr. Diehl having formerly been engaged in business in New York city. The premises utilized for the business consist of two floors 30x93 feet in dimensions, which are fully equipped with all necessary machinery and operated by steam power, employment being furnished three skilled mechanics. The products of the house comprise all kinds of machinery known to the trade, and an extensive line of shaftings, pulleys, hangers, etc., are kept constantly on hand and made to order. This house makes a specialty of repairing engines and other machinery and carries a full line of engineers and mill supplies. All kinds of jobbing...

### Reviews

*The book is fantastic and great. I have got read through and i am confident that i will planning to read yet again once again in the foreseeable future. I found out this book from my dad and i recommended this publication to discover.*
