Excerpt: .of its complication and prevention of extension; and in 1891 I began to curette the uterus for acute salpingitis and peritonitis. The results obtained were startling. A riper experience and more careful observation of my cases have led me to expect a cure (or, rather, to retain the idea of my paper, to prevent suppuration) from curettage, irrigation, and the use of antiseptic dressings in one class of cases only, namely, those cases of first infection when seen within a week after extension of the infection outside the uterus. This operation, the advocacy of which brought so much unpleasant criticism upon me, is now the accepted routine procedure in most of our general hospitals. I have applied it in nearly a hundred cases of acute first attacks and have never seen failure result from it when early applied. If we secure good results from...
