By Thomas Scriven Usherwood

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 66 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1916 edition. Excerpt: . . . wages, coal, etc.) is, in pounds, where s is the speed in knots. Express the total cost of a passage of 3400 nautical miles in terms of s. What value of x will make this total cost a minimum Show that at speeds 10 per cent. greater or less than this, the total cost is not very much greater than what it is for the best speed. 16. If zuVC--C2R, where V and R are given, find the value of C in order that 11 may be a maximum. Hence shew that to get the maximum work per second from a motor, it must run at such a speed as will bring the current to half the value it would have if the motor were at rest. 17. X, Y are two points on a straight shore line distant 8 miles apart. A...
