Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Relation of Quickness of Learning to Retentiveness The present work is the outgrowth of experiments on memory that I have been conducting since the year 1906. My studies have had in view several problems under the general head of memory, and some of the results have already been published as follows: The Relation of Length of Material to Time Taken for Learning, and the Optimum Distribution of Time, Journal of Educational Psychology, 1914, 5, 1-9, 85-91, 155-163. The problem of the present study has been in view from the start, but has not been included, except incidentally, in the articles which are enumerated above. Acknowledgments are due first of all to Professor Cattell, to whom I am especially indebted for the numerous suggestions and for the many valuable hints and criticisms given me in the treatment of the results. For similar reasons I must also thank Professors Thorndike and Woodworth. To Professor E. Meumann, formerly of the University of Leipzig, I am indebted for his numerous suggestions and for the opportunity given me to...
