Text-Book of Nervous Diseases: Being a Compendium for the Use of Students and Practitioners of Medicine (Classic Reprint) (Paperback)

By Charles Loomis Dana

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Text-Book of Nervous Diseases: Being a Compendium for the Use of Students and Practitioners of Medicine It is the object of the author in this treatise to present the science of neurology in a concise yet as far as possible complete form. Each subject has been taken, all the available facts regarding it have been ascertained, the writer s own experience has been collated, and with the data thus gathered the chapters have been written. The labor involved in such a task has been very great, but I am encouraged to believe that the result will be a useful one; for the work does not compare or compete with the large treatises which are already in the field nor with the smaller introductory textbooks. I have tried to furnish a book which will be suitable for the student and practitioner and not valueless to the specialist. The extreme importance of a knowledge of anatomy has led me to pay especial attention to furnishing in a condensed form the most recent accessions to our knowledge of...

Reviews

An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publishes this book.

This is the finest publication we have read through right up until now. Better than never, though I am quite late in starting reading this one. It has been written in a remarkably easy way in fact it is only after I finished reading through this book that I basically altered me, affected the way I think.
