C. : United States Environmental Protection Agency, Office of Research and Development, 2006 OCLC Number: (OCoLC)71519437 Subject: Sustainable development -- United States. Excerpt: . . . Chapter. Introduction and Purpose This chapter relates the Sustainability Research Strategy to the mission of the Office of Research and Development and describes the research strategys goals, outcomes, and organization. This important goal of helping society make good Sustainability and the ORD Mission decisions was identified by the 1998 House Committee on From the perspective of the Office of Research and Science report, Unlocking Our Future: Development, the science of sustainability is developing While acknowledging the continuing need for science the underlying knowledge base that allows decision and engineering in national security, health and the makers to make sustainable choices. For natural resource economy, the challenges we face today cause us to managers, this means how to manage our resources to propose that the scientific and engineering enterprise provide maximum services today and in the future. For ought to move toward center stage in a fourth role; urban planners, this means how to build cost-effective that of helping society make good decisions. We and efficient urban systems that protect both human believe this role for science will take on increasing health and the environment. For decision makers in importance, as we face difficult decisions related to industry, this means how to enhance economic growth 3 the environment. while minimizing industrys footprint on the environment. The science of sustainability aims to anticipate problems Recent external reviews of two other ORD research and promote innovation. A 1997 National Academy of programs have re-emphasized the theme of this Engineering report suggests the path to sustainability congressional guidance. The 2005...
