

Basal Ganglia and Thalamus in Health and Movement Disorders

Filesize: 1.59 MB

Reviews

This is basically the very best book we have go through until now. I have got read and i also am confident that i am going to gonna study once again again in the future. I am just very happy to inform you that this is basically the very best ebook we have read inside my own life and might be he very best publication for at any time.

(Angus Hickie)

Book Condition: New. Publisher/Verlag: Springer, Berlin | This volume is comprised of the majority of lecture presentations and a few select posters presented at the International Workshop, "Basal Ganglia and Thalamus in Health and Movement Disorders," held in Moscow, Russia, on May 29-31, 2000. The International Committee responsible for organizing this workshop included Alexander Konovalov, Director, Burdenko Institute of Neurosurgery of the Russian Academy of Medical Sciences, Mahlon DeLong, Chair, Department of Neurology, Emory University, Atlanta, USA, Alim Louis Benabid, Chief, Neurosurgery Service, University of Joseph Fourier, Grenoble, France, and the two undersigned. The workshop was conceived out of a desire to provide a forum for discussions of both basal ganglia-and motor thalamus-related issues by bringing together basic scientists and clinicians representing different disciplines, research directions, and philosophies. The primary goals were to encourage an exchange of information and ideas in an informal environment, to stimulate integration of the data from different disciplines, and to identify controversial issues and the most essential questions to be addressed in future research. | Part I: Basal Ganglia Circuitry in Movement Disorders: Historical Perspective and Overview of the Current Status of the Field. What We Know and What We Have Left to Learn; A.B. Young, J.B. Penney. Basal Ganglia Circuits in Movement and Movement Disorders; T. Wichmann, M. DeLong. Part II: Anatomical and Functional Organization of Basal Ganglia and Motor Thalamic Circuits. Microcircuits of the Striatum; J.P. Bolam, M.D. Bevan. Local and Efferent Neurons and Intrinsic Modular Arrangement of the Human Striatum; T. Leontovich. Efferent Connections of the Human Striatum and Pallidum: A Nauta Degeneration Study; A. Morel, et al. Cognitive Aspects of the Motor Function of the Striatum; B.F. Tolkunov, et al. Neuroanatomical Organization and Connections of the Motor Thalamus in Primates; I.A. Ilinsky, K. Kultas-Ilinsky. Pallidal and Cortical Determinants of Thalamic Activity;...
