BIOSORPTION OF HEAVY METAL TOXICANTS FROM WATER SOLUTION

LAP Lambert Academic Publishing Mrz 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x6 mm. Neuware - Heavy metal contamination is a major environmental issue and is of global concern. Pollutants such as oil, proteins and heavy metals arising from industrial activity, domestic waste, for example sewerage, contamination from mining activity, agriculture and infrastructure development all contribute to the contamination of soils and water ways and pose an increasing threat to the environment and living organisms. Softwood and hardwood barks represent waste...

Reviews

It is really an awesome ebook which i have ever go through. It is actually writer in straightforward terms and not confusing. I am very easily could get a satisfaction of reading a written ebook.

-- **Clotilde Wiegand**

This pdf is fantastic. It typically is not going to price too much. You will not truly feel monotony at at any time of your own time (that's what catalogs are for about if you request me).
