## DIE GESELLSCHAFT (1)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 356 pages. Original publisher: Carlisle Barracks, PA: Strategic Studies Institute, U. S. Army War College, 2008 OCLC Number: (OCoLC)212783561 Subject: Nuclear nonproliferation. Excerpt: . . . IAEA would need to assure timely detection of military diversions - i. e. , time sufficient to allow states to intervene to block the possible high-jacking of civilian facilities and materials to make bombs. On the basis of these analyses, the IAEA Board of Governors should instruct the IAEA Department of Safeguards to report back to the Board regarding desirable revisions to the agency's criteria for what nuclear safeguards over different nuclear materials and activities should be. C. Call for increased monitoring of those nuclear facilities for which such timely detection is not yet possible ( e. g. , nuclear bulk-handling facilities where nuclear fuel is made and processed and on-line fueled reactors, such as heavy water reactors, where keeping track of the fuel going in and out of the plant is particularly taxing ). Such increased monitoring should be designed at least to increase the prospect of detecting diversions after they have occurred. The IAEA should make clear that timely detection of diversions ( i. e. , detection of diversions before they are completed ) from such facilities is not yet possible. Finally, the IAEA should make the plant operators and owners pay for this additional monitoring. This additional cost should be considered a normal cost of conducting these activities. D. Avoid involving the IAEA in the verification of a military fissile material cut-off treaty ( FMCT ). As currently proposed, a FMCT assumes that the timely detection of diversions from declared nuclear fuel-making plants is possible when, in fact, it clearly is not. E. Call for physical security measures at...
