

Dawn: Thoughts on the Presumptions of Morality, Volume 5

By Friedrich Nietzsche

Stanford University Press. Paperback. Book Condition: New. Paperback. 456 pages. Dimensions: 7.1in. x 4.7in. x 0.9in. Dawn is the most recent volume to appear in the first complete, critical, and annotated English edition of all of Nietzsche's work. The edition, organized originally by Ernst Behler and Bernd Magnus, is a translation of the celebrated Kritische Studienausgabe in 15 Bnden (1980) edited by Giorgio Colli and Mazzino Montinari. The book is the first to appear under the editorial direction of Alan D. Schrift, Keith Ansell-Pearson, and Duncan Large, and to incorporate subsequent corrections to the 1980 edition. Continuing the positivistic turn of Human, All Too Human, Dawn is the second installment in the free spirit trilogy that culminated in The Joyful Science. One of Nietzsche's yes-saying books, it marks his first significant confrontation with morality and offers glimpses of many of the signature themes in his mature works. Dawn has come to be admired in recent years for its ethical naturalism, psychological observations, and therapeutic insights. Presented in Nietzsche's aphoristic style, it is a text with hidden riches, one that must be read between the lines and one that the discerning reader will admire and cherish. Reviews

The very best publication i at any time study. It really is basic but shocks inside the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Marlin Swift**

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
